

Missionary Prayer Calendar

January 11-16, 2021

- Mon. [Ryan & Heather Newman, Church of the Nazarene, Thailand.](#)
Brothers and sisters in Myanmar have continued to have great success in showing the Jesus film. 32 small groups have started as a result. Pray for the spiritual growth of these participants & for the Lord to provide/develop local leaders.
- Tues. [Alban & Dori Pasho, CRU, Albania.](#)
Today & tomorrow, Alban is facilitating an online seminar promoting effective study habits. Pray that the college students who participate will be open to spiritual mentoring after the seminar.
- Wed. [Berti & Ade Berhami, CRU, Albania.](#)
The Berhamis were added to the GBC Family of Missionaries during 2020. Berti was one of 5 young men saved 30 years ago at the end of Communist rule in Albania. All 5 have gone on to ministry & then leadership ministry in Albania. Ade is mentoring non-believing young professional women. Pray for Berti & Ade as they work thru the constraints of ministry among university students & imminent graduates.
- Thurs. [Brad & Mary Coon, Frontier Fellowship \(FF\), Ipswich, MA.](#)
Brad is another addition to our GBC Family of Missionaries in 2020. His role with FF includes developing missions resources mobilizing churches in New England & expanding influence among new denominations. Brad & Mary rejoice with the news of their first child, a son, to be born in April. Pray for Mary & the baby to be healthy.
- Fri. [Jim & Joan Yost, New Generations, Papua.](#)
Pray that the New Generations Team would not be afraid to take risks...that God would open their eyes to see opportunities in the days ahead when others only see obstacles, dead ends, and desperation. Ask God to give leaders across the nation new disciples to mentor into leaders.
- Sat. [Danny & Christy Aanderud, Novo, Oxford, England.](#)
The family is in lockdown again as England is the epicenter of the new strain of Coronavirus. Pray for Danny to be creative in ministry among Oxford scholars. Young son, Teddy, is back home from the hospital and almost back to "normal"! PTL!
