

Missionary Prayer Calendar

March 13-18, 2023

- ❑ **Mon. Jo Shetler, Wycliffe, NC.** As of this writing, Jo is in the hospital after 2 weeks of severe pain due to gastric problems. 3 recent CT Scans do not indicate a twisted intestine or blockage. Pray for relief of pain, diagnosis, healing. Jo is in her 80s.
- ❑ **Tues. Dana & Karen.** Dana is in the midst of jet-lag teaching a 3-day pre-conference seminar. Pray for his strength & stamina. Pray for those who are attending his seminar & the conference later in the week to be inspired & motivated by the ways God is blessing new methods of reaching the lost.
- ❑ **Wed. Chris & Carolin Jackson, Wycliffe, Cameroon.** This is the last week of the Fulfulde Literacy workshop. “School all day” is a total change for the participants & they are tired. Pray for their strength & stamina in this last week of learning & for safe travel home to a near country thru dangerous territory of civil turmoil.
- ❑ **Thur. Ron & Dorie Smith, Global Sharing, Atlanta.** Pray for Gavi & Elena Moldovan working in Romania with United World Mission challenging churches, schools, & mission organizations to present the Gospel & disciple new believers. Gavi will be speaking at a mission conference later this month to present a message that he hopes will ignite the hearts of believers to do just that.
- ❑ **Fri. Matt & Christy Taylor, Wycliffe, PNG.** 3 Nukna village men were in Ukarumpa with Matt for leadership training in *Culture meets Scripture* workshops. One of the men, Emson, received a call that his brother had died & Emson was expected back in his home village to carry out family responsibilities. After an agonizing time of prayer in priorities, Emson told Matt, “Everyone dies, but as long as we are alive it is our chance to do God’s work!” Emson finished training & is now ministering in a far village. Pray God will use him in a mighty way.
- ❑ **Sat. Danny & Christy Aanderud, Novo, Oxford, UK.** Pray for Danny & his teammates as they work to activate interest in a prayer training program by posting on Facebook and Instagram.
